

Commercial Access and Web Pack

DESCRIPTION

Commercial Access & Web Pack

Take fast, reliable Internet access, add loads of web space, and include unlimited email addresses, give yourself a cool domain name and you've got a Commercial Access & Web Pack.

Access is provided by the acclaimed Legend I-Dial 128kbps ISDN service. This is equally at home connecting to a single-point ISDN terminal adaptor or via a branch office router - either way support is always on hand.

A meaty 20 Mbytes commercial web space with all the trimmings. The commercial space includes server logs if required and options for statistical traffic analysis, password protection, search engines, message boards and secure server areas.

The Commercial Access & Web Pack includes a domain name of your choice including registration, hosting and all Nominet, Internic or Nomination registration fees.

Includes all of the following for a single fee:
