

MS Exchange Business Solution

DESCRIPTION

MS Exchange Support Package

Based on the Commercial Access & Web bundle our MS Exchange Support Package has been tailored to meet the specific requirements of Microsoft's Small Business Server.

Extensive support is provided for SMTP email delivery. This includes the provision of a fixed IP address, individual mail queuing for each domain and automated queue processing the moment a remote connection is established.

Developed in response to the increasing number of corporate connections based on Small Business or Exchange Server, MS Exchange Business Solution will support remote connections via ISDN or 56Kbps modem.

An ample quota of commercial grade web space and a domain name of your choice, including all Nominet, Internic or Nomination registration fees, completes the package.

Includes all of the following for a single fee:

MS EXCHANGE SUPPORT PACKAGE

- 128kbps ISDN access and/or 56kbps modem access (V.90, K56flex)
- Local call rate access (0845) from all areas within the UK
- Unlimited time on-line
- Static IP address and extensive support for SMTP email delivery
- Unlimited telephone support (real engineers, no auto-attendant)
